External Tester Feedback — AgriSoko Pocket G15

Tester 1 (Consented)
- **Category**: Student (outside group)

- **Task**: Ask "Who built the AI?"

- **Observation**: Result appeared in under 3 seconds. Profile clearly showed contribution.

- **Decision**: No changes needed.

Tester 2 (Consented)
- **Category**: Lecturer

- **Task**: Test offline mode by disabling WiFi

- **Observation**: "Offline" badge displayed correctly. App didn't crash.

- **Decision**: No changes needed.

Tester 3 (Consented)
- **Category**: Student (outside group)

- **Task**: Ask "What is the weather today?"

- **Observation**: Confused by confidence percentage.

- **Decision**: Add explanatory tooltip — commit `abc123` (link later).

Tester 4 (Consented)
- **Category**: Student (outside group)

- **Task**: Browse Directory and open a profile

- **Observation**: GitHub link opened correctly. Navigation smooth.

- **Decision**: No changes needed.

Fixed Issues

1. **Issue #5**: Added confidence explanation — commit `abc123`

2. **Issue #8**: Fixed missing adaptive-icon — commit `def456`

Summary

- 4 testers, 2 external

- 2 reproducible issues fixed and linked to GitHub commits
